RENAISSANCE
WEST MIDLANDS

HERBERT MEDIA TRAINING

Improve your media skills through training delivered by our in-house team and approved freelancers who between them have decades of training and practical experience within the creative industries.

We offer:

- A diverse programme of public access training courses from beginner to practitioner level.
- Bespoke courses tailored to the training needs of your organisation: your clients, members and employees.
- One-to-one training to address your specific individual training needs.
- Free advice surgeries to identify what type and level of training you best require.

NEW MEDIA/ICT TRAINING

Want to design better promotional posters, build a web page, give a professional sheen to your holiday snaps or create your own cartoon characters? We have a range of short creative media courses that will enable you to gain new skills for the workplace or enhance a fun hobby at home. Delivered in our smart, well-equipped New Media ICT Suite and including animation, web design, Photoshop, Illustrator and Flash.

VIDEO/FILM & TV PRODUCTION

Whether securing a technical edge over your *youtube* peers, producing home movies, wedding videos or becoming the next Tarantino there are a range of courses, workshops and one-to-ones to help you achieve your goal. From learning how to decide which is the best digital camera to buy, and

then how to use it, through to scriptwriting, production, editing, HD film and production, lighting and sound. These are delivered in our spacious training room and two of the best-equipped standard definition and high definition edit suites in the region.

AUDIO & SOUND RECORDING

Not only can you learn the skills needed to be a professional sound engineer, but after successfully completing our ten week Sound Technology and Recording Course (STAR), you can actually become one by hiring our studio at a reduced rate to further hone your skills, record that debut album or demo your favourite local band. We also provide training in 5:1 surround sound, Midi, Cubase, Reason, Logic, Sequel and post production sound for moving image all delivered from our modern, professional multi-track digital recording studio and sound design suite.

ARE YOU A TRAINING PROVIDER?

Then check out our hireable training spaces:

- Modern ICT suite for hire to external organisations with four Macs and four PCs running Adobe software.
- Hireable training room; a bright, modern city centre meeting space that caters for up to 25 people. Competitively priced, well equipped and ideal for meetings, workshops, training sessions and presentations.
- Hirers include Warwick Arts Centre, Coventry City Council, Frontline AV, Arts and Media Training and Creative Partnerships.

CLIENTS WE DELIVER TRAINING FOR:

We have provided training for, or have training partnerships with, a host of organisations including Renaissance West Midlands, City College Coventry, Coventry City Council, Connexions, Save the Children UK and Bablake School.

HERBERT CAFE

We also have our own inhouse cafe for refreshments. The food is made fresh each day from ingredients delivered in the morning from local suppliers. Drinks and snacks are also available.
