Inspire Creativity and Build Key Skills with Bronze Arts Award  
The Bronze Arts Award offers learners an engaging opportunity to explore and participate in the arts while developing valuable personal and transferable skills. This Level 1 qualification supports creative expression, independent learning, and communication, skills that are vital for success across school subjects and beyond.

To achieve the award, learners create a personal arts log or portfolio to evidence their experience across four key areas:

- Taking part in an arts activity – developing skills in a chosen art form (e.g. music, design, visual arts, digital media)
- Experiencing the arts as an audience member – attending and reflecting on at least one arts event
- Researching an artist or arts practitioner – exploring careers and creative practices in the arts sector
- Sharing an arts skill with others – demonstrating leadership and communication by teaching or presenting a creative skill

This flexible and accessible award nurtures confidence and motivation in learners, making it particularly valuable for learners of all abilities, including those who may not thrive through traditional academic routes. It also supports Gatsby Benchmark 4 by linking curriculum learning to careers in the creative and cultural industries.

**RQF - Arts Award Bronze**  
**QAN – 501/0081/6**  
**Fridays, 10am – 3.30pm**
